# Captain India

## My Safety Superhero

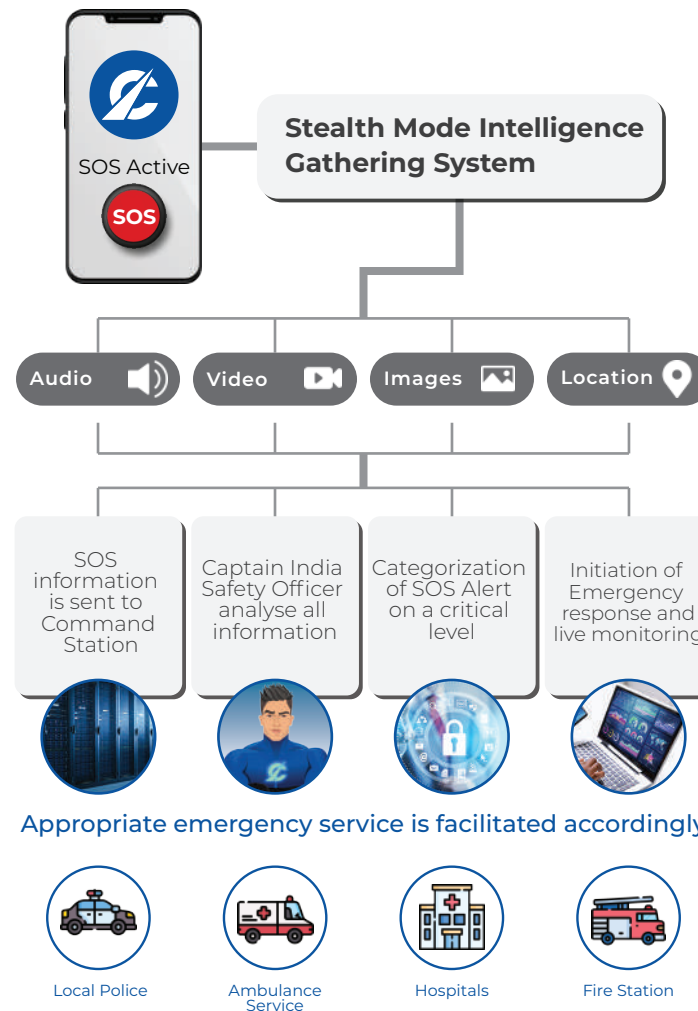

**This is India's first 24x7** virtual safety superhero who is AI powered, smart, dependable backed by highly intelligent multi-dimensional support system to protect you on the go.

**Captain India** - My Safety Superhero resides in our 24x7 command station and is equipped with all the latest tech tools and information data. He has ingrained commitment to guard you whenever required. For him no risk is too great and no corner of the country is too far to protect you when you need him the most.

Captain India -My Safety Superhero is your virtual safety partner, he is there for you  
Alert, **Anytime, Anywhere, Always**

## Emergency Response Service Architecture

Captain India is designed to intelligently incorporate a number of important personal safety features into a single app that can be used for many emergency situations. Being connected 24x7 with the Command Station with stand-by Emergency Response Services, the USP of Captain India is not only to monitor and report but to also ensure timely action needed to avert possible crises.

## Personal Safety Features

With full control over privacy settings, you decide what information is shared and when, including your location, images and videos. This information will not be shared outside of **ZIMAXX** or the organization with which you have purposefully connected. We will not share any of your personal data with anyone for any reason.
